THE RANCH
FITNESS CENTER & SPA

RANCH STUDIO

BEAT

A low-impact aerobics class that uses drum sticks to pound out the "beat" and work up a sweat! This class encourages large, dynamic movement through "clicking" and "drumming" to improve cardiovascular health and build strength.

CROSS CAMP

This high-intensity, interval-style workout incorporates elements of strength, agility, and conditioning. Each class blends circuits of cross-training and boot camp style exercises. Designed to burn fat and build muscle, this workout promises a varied mix of high-energy training.

DANCE PARTY

This low-impact, dance-inspired workout is sure to work up a sweat! A variety of music and dance styles will get you motivated to move. Forget exercise; you have an invitation to the dance party!

G.R.I.T.

(Get Real Interval Training) is a full-body conditioning workout. Moderate to high-intensity exercise intervals focus on strength training and are paired with cardio bursts. G.R.I.T. and determination will get you fitness results fast!

HIIT X **NEW CLASS!**

Welcome to HIIT X, the ultimate high-intensity 30-minute fitness workout designed to push your limits and maximize your results! This class is all about high-intensity interval training, where you'll alternate between short, intense bursts of exercise and brief recovery periods. Torch calories, boost metabolism, and improve your overall fitness level.

MUSCLE MIX

Challenge muscular strength, endurance, and balance through a variety of exercises incorporating dumbbells, resistance tubes, platforms, and other small apparatus.

POWER PUMP

A barbell training class designed to build strength and muscle. With the ability to change the resistance load quickly, this class also elevates the heart rate response. Build muscle and burn fat!

PUNCH OUT PD

The sport of boxing requires speed, agility, balance, strength, and stamina. These are the same things people with Parkinson's need to preserve or regain. This circuit style class incorporates rigorous, power training that strengthens muscles and empowers confidence. People with Parkinson's disease can enhance their quality of life with the right exercise. This program will help people combating PD feel better and function better. Don't sit back...come out swinging and Punch out Parkinson's!

YOGA FLOW*

This class introduces more challenging aspects of the Vinyasa practice. The flow of yoga postures encourages muscles to strengthen and lengthen, all with a mind-body focus for improved wellness.

HATHA YOGA*

This class begins with a slow flow of postures, then moves into a variety of sequences perfect for promoting joint health. The practice concludes with a restorative series of deep, relaxing floor postures and breath exercises that restore a sense of balance and well-being.

YOGA STRETCH*

This class is designed to help the body come into a 'balance' of strength and flexibility. The stretching techniques will incorporate breath work to encourage relaxation and tension release. The goal is to improve range of motion and establish muscular balance. The stretches may use props such as straps, blocks or stability balls. This class is suitable for all levels and body types.

ZUMBA®

Zumba®'s high-energy dance moves are blended to the rhythms of salsa, meringue, cumbia with reggaeton, and hip hop. Zumba brings you an inspired cardio-dance workout like never before.

ZUMBA® TONING

Zumba® Toning combines bodysculpting exercises with high-energy Zumba® dance moves. Learn how to use lightweight, maraca Toning Sticks (or light dumbbells) to enhance rhythm and tone muscles. Don't miss this calorie-torching, strength-training fitness-party. Toning Sticks are not required to participate, but will enhance the workout, they will not be provided.

**Mats are limited. It is recommended to bring your own.*

SPIN STUDIO

POWER CYCLE

An interval-style cardiovascular workout on indoor Spinning® bikes. Instructors coach you on various road profiles. New students are advised to arrive early to get fitted on a bike properly.

PEDAL OUT PD

Pedal Out PD (Parkinson's Disease) is a cycling program that strives to improve the lives of those living with Parkinson's disease. POPD is a form of 'forced intensity' exercise on an indoor bicycle. Studies indicate that forced-intensity is beneficial in the management of Parkinson's symptoms; including improved motor function and cognitive health. A pre-screening questionnaire is required to attend this class.

TRX® STUDIO

TRX® + CARDIO CIRCUITS

Build strength, endurance, core, and flexibility with TRX® basic and intermediate moves which are layered with cardio bursts to ramp up your heart rate and give you a workout that benefits your musculoskeletal and cardiovascular systems.

TRX® HEALTHY JOINTS I

This is perfect for the TRX® newcomer or those seeking a gentler approach to suspension training. Healthy Joints I supports active aging by improving strength, flexibility, and balance. This small group format ensures personal attention for maximum results.

TAI CHI/QIGONG

You CAN learn Tai Chi and Qi Gong. It is two classes in one. In your Beginners Tai Chi class, you will learn the basics and beyond. Both Tai Chi and Qi Gong are ancient practices that use very easy-to-do, and easy-to-learn movements, coupled with healthy breathing techniques. You will be practicing movements from both art forms, Tai Chi and Qi Gong. The movements can be modified, if you feel the need to sit during part of or all of class.

TRX® TURBO

This heart-pounding hybrid of suspension training combines kettlebells, BOSUs, and dumbbells for an accelerated, high-intensity challenge. TRX®-Turbo uses timed intervals for a metabolic workout that builds core strength, endurance, and athletic performance.

POOL

AQUA SCULPT & TONE

Water's resistance provides the perfect opportunity for strength and conditioning exercises. Not only will this class help to reshape your body while improving strength, balance and flexibility, it provides a low impact, supportive environment. Thanks to water's impact on gravity, it creates the ability for you to move safely through large ranges of motion, which improves function.

H2O FIT**

Water is a wonderful environment for exercise. This class provides the healthful benefits of cardio and strength exercises while reducing the impact experienced on land.

H2O HIIT**

This high-energy aqua class incorporates timed intervals of exercise and recovery. The exercises can be done at your own pace. All fitness levels are welcome.

***Aqua Classes are limited to 25 participants. Sign-in is available one hour prior to class start time.*

VIRTUAL WORKOUT

#TOOFITTOQUIT

Keeping fit at home is easy with The Ranch's virtual workouts! We have carefully crafted a balance of workouts that will enable you to keep up with your favorite exercises. These workouts are designed for limited space and incorporate equipment easily found at home.
